Der Band 'Konstitution und Vorkommen der organischen Pflanzenstoffe, exclusive Alkaloide I' von Dr. Walter Karrer hat rasch grossen Anklang gefunden. Bei den an Naturstoffen interessierten Naturwissenschaftlern deshalb hatte Dr. Karrer geplant einen Fortsetzungsband zu schreiben. Er hinterliess bei seinem drei Jahre nach dem Erscheinen des Buches 1958 erfolgten Tode 1961 eine schon recht umfangreiche Sammlung von Literaturnotizen. Auf Anregung des Birkhäuser Verlags haben die Unterzeichneten C. H. E. seit 1962 und E. C. seit 1968 die Bearbeitung und Herausgabe eines Ergänzungsbandes übernommen. Es waren mehrere Gründe, welche uns bewogen, die Literaturzusammenstellung auf Ende 1961, das heisst auf einen Zeitraum von fünf bis sechs Jahren seit Abschluss des Hauptwerkes zu begrenzen. Genannt seien die folgenden: Der Umfang des Ergänzungsbandes sollte 900-1000 Seiten nicht überschreiten. Anzustreben war erneut Vollständigkeit, nicht Auswahl, und die Grundzüge des Hauptwerkes, namentlich sein deutlich hervortretender historischer Charakter, sollten beibehalten werden. Die Verfasser des vorliegenden Ergänzungsbandes haben bei ihren Literaturarbeiten die Originalliteratur in Wahl höherem Masse konsultiert, als Dr. Karrer, der sich noch in vielen Fällen auf eingehendere und inhaltsreichere Literatur referate stützen konnte. Als dies im allgemeinen heute noch möglich ist, Daten, die wir nicht im Original haben einsehen können, wurden durch Angabe des Fundortes charakterisiert. Zitate aus dem Chemischen Zentralblatt oder aus den Chemical Abstracts sind mit 'laquo ref raquo' gekennzeichnet. Falls sie einer angeführten, aber von uns nicht eingesehenen Originalarbeit entstammen, folgt die benutzte Referatenstelle in eckigen Klammern.

Annotation Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research written by experts in their specialist fields. The series creates a unique service for the active research chemist, supplying regular critical in-depth accounts of progress in particular areas of chemistry. For over 80 years the Royal Society of Chemistry and its predecessor the Chemical Society have been publishing reports charting developments in chemistry, which originally took the form of annual reports. However, by 1967 the whole spectrum of chemistry could no longer be

contained within one volume and the series specialist periodical reports was born the annual reports themselves still existed but were divided into two and subsequently three volumes covering inorganic organic and physical chemistry for more general coverage of the highlights in chemistry they remain a must since that time the spr series has altered according to the fluctuating degree of activity in various fields of chemistry some titles have remained unchanged while others have altered their emphasis along with their titles some have been combined under a new name whereas others have had to be discontinued the current list of specialist periodical reports can be seen on the inside flap of this volume
