in this book an international group of public policy scholars revisit the stage of formulating policy solutions by investigating the basic political dimensions inherent to this critical phase of the policy process the book focuses attention on

how policy makers craft their policy proposals match them with public problems debate their feasibility to build coalitions and dispute their acceptability as serious contenders for government consideration based on international case studies this book is an invitation to examine the uncertain and often indeterminate aspects of policy making using qualitative analysis embedded in a political perspective

many of the basic issues of political science have been addressed by pluralist theory which focuses on the competing interests of a democratic polity their organization and their influence on policy andrew mcfarland shows that this approach still provides a promising foundation for understanding the american political process

in twelve essays influential scholars in political science explore the meaning of political leadership from the kaleidoscopic perspectives of the leaders institutions goals procedures problems and traditions involved the approaches as varied as the subject itself coalesce around the central question of how leaders interact with transform or are controlled by the organizations they lead

a sharp analysis of the similarities differences and impact of the presidencies of franklin roosevelt and ronald reagan two iconic figures representing polar opposites of twentieth century american politics

provides information about a wide range of curricular issues affecting elementary and high school education exploring methodological and conceptual issues looking at the forces that shape the curriculum studying the impact of the curriculum on special groups of students and discussing conventional subjects like reading and math

although just a decade ago the destruction of a european state and society through war and genocide remains one of the worst global crises of the post cold war era with reverberations still felt today bombardment and sieges of major towns and cities concentration and death camps and the mass slaughter and expulsion of civilians were all characteristics of a type of warfare that europe had never dreamed might return the war against bosnia had a major impact on european and wider global consciousness being as it was then the most reported debated and analyzed conflict to date but despite the extensive coverage of bosnia the author contends the conflict and its origins were certainly misunderstood there being a significant gulf between media perspectives and the thrust of academic discourse this multidisciplinary book is based on extensive

research into the tv and newspaper framing of the war during the critical early period of its development uniquely the analysis of media is underpinned by an extensive and detailed historical argument about the nature of the wars and the politics of the federation including the use of media in war making strategies in yugoslavia itself it will be of interest to scholars of ir and politics media communication and journalism studies and war and genocide studies journalists and the general reader will find the book accessible with valuable insights into reporting war and understanding media representation of conflict key issues and questions addressed include the critical use of official sources and propaganda in journalism how media and policymakers interact to define and frame problems for policy action what factors limit the accurate reporting of war what is genocide and how is the genocide convention relevant in practice and how to report genocide when such coverage conflicts with state interests
