financial markets and the real economy reviews the current academic literature on the macroeconomics of finance new chapter by soros on the secrets to his success along with a new preface and introduction new foreword by renowned economist paul volcker an extraordinary inside look into the decision making process of the most successful money manager of our time fantastic the wall street journal george soros is unquestionably one of the most powerful and profitable investors in the world today dubbed by businessweek as the man who moves markets soros made a fortune competing with the british pound and remains active today in the global financial community now in this special edition of the classic investment book the alchemy of finance soros presents a theoretical and practical account of

current financial trends and a new paradigm by which to understand the financial market today this edition's expanded and revised introduction details soros's innovative investment practices along with his views of the world and world order he also describes a new paradigm for the theory of reflexivity which underlies his unique investment strategies filled with expert advice and valuable business lessons the alchemy of finance reveals the timeless principles of an investing legend this special edition will feature a new chapter by soros on the secrets of his success and a new foreword by the honorable paul volcker former chairman of the federal reserve george soros new york ny is president of soros fund management and chief investment advisor to quantum fund n v a 12 billion international investment fund besides his numerous ventures in finance soros is also extremely active in the worlds of education culture and economic aid and development through his open society fund and the soros foundation

well functioning financial markets are crucial for the economic well being and the justice of contemporary societies the great financial crisis has shown that a perspective that naively trusts in the self regulating powers of free markets cannot capture what is at stake in understanding and regulating financial markets the damage done by the great financial crisis including its distributive consequences raises serious questions about the justice of financial markets as we know them this volume brings together leading scholars from political theory law and economics in order to explore the relation between justice and financial markets broadening the perspective from a purely economic one to a liberal egalitarian one the volume explores foundational normative questions about how to conceptualize justice in relation to financial markets the biases in the legal frameworks of financial markets that produce unjust outcomes and perspectives of justice on specific institutions and practices in contemporary financial markets written in a clear and accessible language the volume presents analyses of how financial markets should function and how the great

financial crisis came about proposals for how the structures of financial markets could be reformed and analysis of why reform is not happening at the speed that would be desirable from a perspective of justice
